Coursework

GRADUATE

Data Structures and Algorithms

Operating Systems

Database Management System

Computer Networks

Design and Analysis of Algorithms

Object Oriented Programming(**OOP**)

Skills

PROGRAMMING

C++ • Java • Python • Kotlin

DATABASES

• MySQL • MongoDB

DEVELOPMENT

HTML5 • CSS • Nodejs • Android •

Firebase • Git • ExpressJs

Honors

- solved **270+ questions** on **Leetcode**
- **5 stars** - C++ (Hackerrank).
- 3 stars on Codechef (1835 max).
- Pupil on Codeforces (1254 max).

Experience

PROBLEM SETTER

iMOCHA

📅 July 2022 – Present

- Created the coding questions based on the **Data Structures and Algorithms** along with the constraints, test cases and the complete solution.

DEVELOPER INTERN

DOJO SPORTS

📅 Aug 2021 – Jan 2022

📍 Mumbai, MH

- Developed DOJO Basics app from scratch.
- Worked on the performance of DOJO Main app and improved Product Architecture using efficient **Data Structures and Algorithms**
- Suggested new features which increased its overall **Google Play Store** downloads by 31%.
- Worked on mobile payment app that enable customers to make payment on the go.
- Fixed bugs across the stack in **Java**, XML

Recent Projects

PICT SHERS

📅 May 2021

- PICT SHERS is the website where we can share the old books and study materials to our juniors.
- We can see all the available books and study materials on the website and get the contact details of the seniors who is selling for further processing.
- Tech Stack: **HTML5, CSS, React, Firebase**

PRIOR.DO

📅 Aug 2021

- PRIOR.DO app where you can list all the tasks to be completed on the given date and can prioritize the tasks depending on importance.
- App consists of calendar from which you can get track of all the tasks and the reminder which reminds about the task.
- Tech Stack: **Android, Java, Firebase**

Competitions

- Secured Global Rank- **177** in **June Cook-Off 2022 Division 3**
- Secured Global Rank- **273** in **CodeChef Starters 34 Division 3**
- Ranked **1238/20k** in **Codeforces Round 794**
