EDUCATION

B.Tech in Computer Engineering
Pune Institute Of Computer Technology

08/2019 - 07/2023   *CGPA 9.31*

High School
Fahaheel Al-Watanieh Indian Private School

04/2017 - 04/2019   *95.3%*

WORK EXPERIENCE

Summer Intern
UBS

05/2022 - 08/2022   *Pune*

Achievements/Tasks

- Worked with treasury risk technical team to develop a GUI application to automate the tasks of executing Autosys jobs.
- Boosted scheduling of Autosys job execution by 30%
- Written JUnit test cases for unit testing of the application in accordance with set standards.

Contact : Devendra Shah - devendra.shah@ubs.com

Backend Development Intern
Convin ai

09/2021 - 03/2022   *Remote*

***A conversation intelligence platform that helps remote sales team understand** what's working on calls and replicating best performing sales reps.*

Achievements/Tasks

- Boosted pitching skills of sales team to 80% by building a periodic reporting mechanism that provides valuable insights.
- Built the functionality to generate wordcloud for various calls/criteria based on Client request.
- Written test cases for various apps and their functionalities.

Contact : Durgesh Choudhary - durgesh@convin.ai

SKILLS

Python   C   C++   Java

Data Structures & Algorithms

Object Oriented Programming

Database Management System   SpringBoot

HTML   MYSQL   Django   Django REST

PERSONAL PROJECTS

WallStreet (01/2022 - 02/2022) ↗

- **Skills used: Django, HTML, CSS, Celery, Django Channels.**
- Hosted a virtual stock market for over a 1000 players.
- Engineered parallel algorithm to accommodate the amount of traffic coming to the website and running the trading algorithm simultaneously.
- Implemented chatting system for players to interact with brokers directly to buy/sell stocks.

Inquisitive Website (05/2021 - 07/2021)

- **Skills used: Django REST, React JS.**
- A quiz platform where users attempt 30 questions in a timespan on 15 minutes.
- Created API endpoints for displaying random questions and maintaining score of each user.

Multilingual Chatroom (04/2021 - 05/2021) ↗

- **Skills used: Django, Django Channels, HTML, CSS, JS.**
- Chat application which sends and receives messages in custom language based on user preference - Created the entire chatroom from scratch using Django channels.

EDUCATION

Bachelor of Engineering
Pune Institute of Computer Technology,Pune India
2019 - Present   *Average CGPA 9.67*

JKBOSE Grade XII
JK Montessorie Senior Secondary School, Jammu
2018 - 2019   *Score 92.8%*

JKBOSE Grade X
S.M. S.N Higher Secondary School, Jammu
2016 - 2017   *CGPA 8.8/10.0*

WORK EXPERIENCE

Summer Intern
Union Bank of Switzerland (UBS) Business Solutions
05/2022 - 08/2022   *Pune,India*
Achievements/Tasks
- Created shell environment for executing citrix commands on citrix controllers at various ubs data centres
- Worked on Virtual Platform Orchestrator application to solve various problems related to Virtual Desktops and staggered logoff
- Created REST based API for WCF service
- Migrating WCF service from onprem to azure

Intern (Software Development)
Virtue Infotek
08/2021 - 10/2021   *Pune,India*
Virtue Infotek is a IT solution company based in Pune

Achievements/Tasks
- Handling the backend of various projects and working with international clients
- Working across various technologies like Ajax jquery javascript and django
- created dynamic and dependent dropdowns and tables using ajax
- Integrating frontend with backend

Problem Curator
iMocha (formerly Interview Mocha)
10/2021 - 03/2022   *Pune,India*
Achievements/Tasks
- Working as a freelancer / external contributor
- My role involves creating coding questions based on Algorithms and Data Structures

SKILLS

C++   Data Structures and Algorithms

.Net Framework   Django   Team Management

Python   Javascript   Power Shell Scripting

Entity Framework   Citrix Commands   MySQL

Blazor UI

PROJECTS

Real Estate (05/2021)
- Built a web application that help buyers to buy property, flats in minimum time by giving required no of bedrooms, location , state, price etc by registering themselves and making an enquiry about the selected property and getting its reply on their dashboard
- **Tech Stack**: Html CSS Django SQL Python Javascript

Personal Desktop Assistant (05/2020)
- The implemented voice assistant can perform the task life opening youtube, wikipedia to abstract information, take a picture, get top headlines from the Times of India, The hindu websites, opening file for reading and writing purpose. Can be customized as per the need to make tasks more easy
- **Tech Stack**: Python , libraries like pyttsx3, subprocess, os, ecapture, Json, datetime

CERTIFICATES AND ACHIEVEMENTS

Uber Hacktag (2021)
An online competition organised by uber on codesignal platform and was able to clear the first coding round and making it to the next Qualifier assessment www.linkedin.com/in/shivam-2001

Problem solving(Intermediate)
issued by hackerank on the basis of exam https://www.hackerrank.com/certificates/dc712868be00

Problem solving(basic)
issued by hackerrank on the basis of an exam https://www.hackerrank.com/certificates/f9acde2432f7

Algorithm Toolbox(2020)
course done through coursera platform https://www.coursera.org/account/accomplishments/certificate/A9A73DX3M6VZ

CSI sudocode online competition
issued in the basis on the basis of online competition www.linkedin.com/in/shivam-2001

Education

Pune Institute of Computer Technology   **2019 - 2023**
Bachelor of Engineering in Computer Engineering   *CGPA- 9.28*

Residential High-school and Jr. College of Science   **2017 - 2019**
Higher Secondary School Certificate (Science)   *Percentage - 84.31, CET : 99.48 Percentile*

Relevant Coursework

- Data Structures and Algorithms
- Database Management System
- Object Oriented Programming
- Operating Systems
- Computer Networks

Experience

UBS   **May 2022 - Present**
Summer Intern   *Pune, India*
- Working as a chat-bot developer for the Devops Support Team
- Developing chat-bot using different Azure Tools and services for chat-bot **Chat-bot Framework, QnA maker, Knowledge-base**
- Collaborated with team members on **version control system using Git-lab** to organize modification and assigned tasks

NotBot   **Jan 2022 – April 2022**
Python Back-end Developer Intern   *Pune, India*
- Contributed as a **back-end developer** for Chat-Bot API's
- Worked with Different Framework for Whats-app Automation **Waati , 360 chat API**

Projects

Clash | *Python, Django, HTML5 , CSS, Bootstrap, JQuery, SQLite*
- Developed a platform for the coding contest in credenz which is annual tech fest of PICT IEEE Student Branch.
- It is a Advance Quiz Platform which include the features like timeout, browser tab shift and several lifelines

Certificate Generation and Distribution System | *Python, Django HTML5, CSS, Bootstrap*
- Developed a portal for the distribution of the certificate.
- Implemented run-time image generation.
- Organizers need to upload the certificate template and participant's data.
- Participants can download their Certification after providing correct details.

Sushruta | *Django, HTML5, CSS, Bootstrap, JS, SQLite*
- Developed a platform for the effective communication between doctor and patient
- Automated the appointment booking and tried to make the treatment procedure smoother and faster
- Implement various features for doctor as well as patient for appropriate prescription regarding the Disease

Technical Skills

Languages: Python, C, C++, HTML/CSS, JavaScript
Database: MySQL, MongoDB
Technologies/Frameworks: Django, Flask, React(basic), Linux, GitHub, Heroku, Azure Bot Framework

Leadership / Extracurricular

PICT Robotics   **Sept 2019 – Present**
Mechanical Head
- Technical Team member forABU Robocon 2019**AIR-14**
- Robot Designer(Mech) for ABU Robocon 2020(**98/100** in First round)
- Mechanical Head for ABU Robocon 2022 **AIR : 6**
- Worked on various projects of IOT such as **Smart Farming System, Automatic Vacuum Cleaner**

PICT IEEE Student Branch   **Feb 2020 – Present**
Technical Team Member
- Worked as a **Question Setter** and as a **back-end developer** for the flagship event of IEEE **Clash and NTH**
- Successfully Conducted a global event **Wallstreet** with 200+ participation

Manasi Kumbhar

To be a part of a progressive organization which provides me a platform to learn and uplift my technical skills and excel along with the organization.

PROJECTS

Position analysis of football players

In this project using pandas and numpy , I have performed exploratory data analysis of a football player position and with the help of the data I can conclude the best position for that player. I have also visualized the results.

World Time App

In this Project I have created an app using flutter and also integrated an api in it . In this app we can select a region and the time in that region is displayed.

Counter App

This app I made for myself is a very simple app when we touch the screen and the count increases and we can also decrease the count. I required this app for counting repetitions while working out.
